

**Chief Executive Officer's Report
Report to the Board of Directors,
Delegates and CEOs of Member Organizations**

Road Map 2010-2015 as of August 15, 2012

I am very pleased to provide an update of ACCU development programs and business plan approved by the General Meeting and implemented with close monitoring and approval of the Board of Directors. The monthly Management Report provided to the Board of Directors, Delegates and CEOs of member organizations is our means of communicating and soliciting feedback on the activities carried out. We are ensuring that constant flow of information to stakeholders increases the sense of ownership and ensures members' needs are addressed through our services.

This is third year of the ACCU's Strategic Plan.

- 41.6 million Individual Members

Leveraging Core Strength: In partnership with members, we have worked to leverage our core strengths to create sustainable growth for credit unions in Asia. The team members of ACCU and member organizations have executed our strategies and achieved major milestones. This year, I am proud to report that our concerted focus on solutions development has strengthened the foundation for credit union growth and competitiveness. The 18 credit union solutions are now available for members. This year 320 credit union professionals have been trained to use the credit union solutions that will serve as tools to respond to the challenges faced by credit unions.

It is my pleasure to update the Delegates and CEOs on the implementation of the Road Map 2009 to 2014. ACCU is in existence for the last 41 years with a strong commitment on members' partnership. In this report, we attempt to highlight the achievements of the Strategic Plan 2009-2014.

The ACCU management worked diligently to implement the Strategic Plan in an effective manner. More important, we improved the plan by creating forward-thinking goals to support our members and credit unions in responding to their challenges.

The activities of ACCU, inherent in the work to build sustainable credit union system in Asia are exhilarating opportunities: to generate new insights; to strengthen existing partnerships and build new ones; to inspire creative new approaches; to benefit from knowledge shared. We will work to leverage all of these opportunities as we move into 2013.

We have developed 18 credit union business solutions. All these resource materials are available for ACCU's members and credit unions. These sound business practices are compilation of our experience working in credit unions for the last 41 years, combined with modern management technologies deployed within the unique environment of credit unions across Asia. The business solutions are practical tools credit unions can adopt to build the institution, create lasting impact to members' well-being, and equip human resources without losing grip of our differentiation – our principles and values.

The strategic plan will continue to forge partnership with our members to ensure that these business solutions add value to credit unions. ACCU develop tools for the accreditation or the Federation. The ACCESS for National federations will be finalized at the CEOs workshop in September 2012.

ACCU is committed to exert more efforts in deploying the business solutions to address the current and perceived challenges of credit unions. We sincerely thank our members for adopting the solutions such as the Credit Union Directors and CEOs Competency Courses, ACCESS Branding, Credit Union Microfinance Innovations, Professionalization, Management Tools, Credit Union Governance Framework, Stabilization Fund and Risk Based Supervision.

Reaching out the ‘have less’:

As 2012 is the International Year of Co-operatives, we have been actively supporting our members to celebrate the year in meaningful way. We are proud that the Nepal Federation of Savings and Credit Cooperatives (NEFSCUN) was the first to celebrate IYC with its first SACCOS’ Summit in February 2012.

In 2010, ACCU and its members pledged to reach additional 1 million ‘have less’ by 2012 through the Credit Union Microfinance Innovation bear results of reaching 1.6 million by December 31, 2011. In every event, we continuously communicate the need to revisit the credit union mission. F.W. Raiffeisen founded the first credit union in 1854 to fight against poverty and social exclusion.

We always remind our credit union leaders that competition, growth, profits and ease in management system might unintentionally lead credit unions to deviate from their original mission. Our platforms for learning always incorporate topic that strike a chord on credit union mission – the reason of our existence.

We are very thankful for the trust that you have placed in us. 10 National programs focusing on reaching out the poor were organized this year. It was participated by 30,802 credit union leaders and professionals – a reason to be inspired. Thus, we promise to exert efforts to offer our members need based learning experience in the years to come.

ACCU reinforces the target of one million ‘have less’ reached by the Credit Union Microfinance Innovation (CUMI). The CUMI national summit, appointed a point person at the national federation in 7 countries and introduction of Financial Literacy education to the Learn and Save Sessions were some of the initiatives undertaken during the year. The following are the significant milestones in credit union outreach of the poor:

- CUMI outreach is 1.6 million individuals from 823 credit unions
- Credit unions in Asia have reach 6.9 million members belonging to the ‘have less’ category
- The poor outreach of 6.9 million represents 17% of the total credit union membership in Asia of 40 million individuals in 20 countries

Project and Administration Project Development:

Project on Entrenching Credit Union Solutions in the Philippines and Asia is supported by CCA for the period of 2011 to 2015. The propose of the project is consolidate gains and build on results made over the past 10 years with ACCU in the Philippines, by promoting the mainstreaming of existing programs (ACCESS and CUMI), introducing new ones (Federation diagnostic tool) and enhancing the stabilization fund, in support of providing sustainable and affordable financial services equitably to poor men and women.

The Project on Credit Union as Sustainable Solution to Poverty Alleviation (CUSSPA), a three-year (2009-2012) project in partnership with CORDAID of the Netherlands, started implementation in September 2009 in the Philippines, Indonesia, Nepal Bangladesh, Sri Lanka and Vietnam. During the year project provided 12 in country CUMI training and policy development as well as 12 in country regulatory technical assistance program was carried out. The regulators workshop was also organized in conjunction with the forum in the Philippines.

The project is expected provide technical support and encourage member organizations to reach the have less community through CUMI methodology. The project will also continue the advocacy for enabling policy environment for credit unions in Asia. During this year, ACCU took advantage of learning the practices of Paglaum Multi-purpose Cooperative (PMPC) in the Philippines to expand CUMI to AgriFinance. The study of PMPC marks the start of the partnership with the cooperative as a training laboratory on CUMI. The concept paper on AgriFinance was also submitted to Cordaid for potential partnership from 2013.

The Project on Credit Unions Development in Lao PDR in partnership with Rabobank Foundation is aimed to convert Village Development Funds (VDFs) in Luang Prabang as a full pledged Savings and Credit Unions (SCUs). At the end of the project, it is also targeted to organize a secondary federation to promote and strengthen SCUs. As of to date, three SCUs has been registered with the Bank of Lao PDR and four SCUs are being prepared for registration. The service of the volunteer staff supported by PSO¹, Ms. Maribel Gulay of NATCCO has been completed on July 31, 2012.

ACCU and DID first partnership project on the Financial Decision Making was held on April 27 to May 1, 2012 in Bangkok. It was attended by 18 federations' CEOs and executives from Bangladesh, Cambodia, Indonesia, Korea, Malaysia, Mongolia, Philippines, Thailand, and Sri Lanka. At the end of the seminar, the attendees are able to interpret and analyze the financial information of an organization and make strategic and enlightened decisions aimed at improving financial performance and identify and apply relevant and adapted solutions. ACCU and Développement International Desjardins (DID) recently forge partnership on credit union development in Asia. DID shares with ACCU its training resources aimed to add value to the latter's current offerings. It is anticipated that the partnership will provide continuing professional development for credit union leaders and executives.

Platforms for Learning: Being good is not enough in today's market place. Even the best person in the world never stops learning. ACCU recognizes the need to build the competence of leaders and professionals. From September 2011, we have offered 6 regional learning platforms availed by 550 leaders, professionals and regulators.
