

CEO's Workshop
The Asian Credit Union Future
'a destination of choice, not chance'
September 22 to 24, 2008 Dhaka, Bangladesh

The Credit Union Chief Executive Officers Workshop is a platform, which creates a nurturing environment for CEOs dedicated to improving the quality and competitiveness of their credit unions through shared experience and personal growth.

The workshop offers CEOs an opportunity to acquire knowledge on global credit union management ideas, business resources, individual growth sharing, and more freedom for individual member development.

ACCU recognizes the important role of CEOs and General Managers of its member organizations, as they occupy the singular organizational position primarily responsible for carrying out the strategic plans and policies established by the board of directors. Meanwhile, in ACCU, the CEOs play an important role in providing feedback and inputs enabling ACCU to position its services based on the current needs and issues faced by Asian credit unions.

ACCU Road Map 2004-2009 was developed based upon the context that a sustainable Asian credit unions system is made up of strong credit unions as its foundation. The road map identified strategies cementing systems, programs and mechanism heading to the direction of the vision – Sustainable Credit Unions in Asia. The goals and strategies of the road map are in fact relevant to all levels – primary, national and ACCU, though implementation plan would be different at each level.

At this workshop, ACCU would attempt to review with the CEOs the achievements of the Road Map both at national and regional level. Further, the workshop will also solicit inputs to develop the 2009-2015 Road Map of the Asian credit union movement.

CEO's Workshop
The Asian Credit Union Future
 'a destination of choice, not chance'
 September 22 to 24, 2008 Dhaka, Bangladesh
