

Agenda 5

CEO's Report

5.D.00

Report to Boards of Directors, Delegates and CEOs of Member Organizations

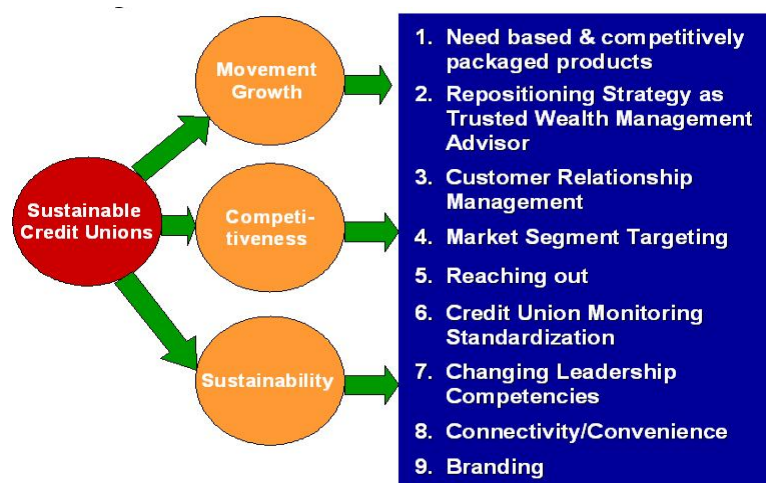

Road Map 2004-2009 as of March 15, 2009

The report provides highlights of ACCU activities from September 2008 to March 2009 plus scorecard of the Road Map of ACCU 2004 to 2009.

The management carried out the programs and business plan of ACCU as approved by the General Meeting. Updates of the monthly activities (Management Report) are consistently communicated to all member organizations, development partners and ACCU Board on a monthly basis. We are ensuring that constant flow of information from ACCU to its stakeholders would pave the way to increase sense of ownership besides ensuring that members' needs are addressed through our services.

The Road Map 2004 to 2009 began the official implementation on the first half of the fiscal year July 1, 2004/2005 until June 30, 2009. The activities carried out were in consistent with the three goals and nine strategies of the Road Map:

Vision: "Sustainable Credit Unions in Asia"

ACCU represents:

Type of Members	Total No CUs	Total No of Members	Total No of Assets US\$ Million
16 Regular Members	44,596	34,586,720	50,486
01 Associate Member			
15 Affiliate Members	3,779	883,355	363
Non Affiliated	2,152	355,114	7
Grand Total	50,527	34,662,329	50,856
27 Supporter Members			

As of March 15, 2009, two Affiliate Members failed to meet their dues obligations for 2008/2009: Mauritius Co-operative Savings and Credit League Ltd. (MACOSCLE) and USC Nepal. Collection letters were sent by the management and final letter was sent by the Treasurer.

ACCU's vision includes the organization's long term dream and indicates the route of transformation required to reach it. The Road Map of ACCU is aimed at reaching our destination of building a Sustainable Credit Unions in Asia characterized by the following key competencies:

- financial viability
- knowledgeable and involved board
- member-customer orientation
- technological competence
- price-competitive products and services
- proficient staff and sales culture
- focus on continual growth

It is my pleasure to provide the Board of Directors, in their first meeting, the first round of update on the implementation of the ACCU Road Map for 2004-2009.

In partnership with members, we have worked hard to successfully leverage our core strengths to create sustainable growth for credit unions in Asia. The team members of ACCU and member organizations have executed our strategies and achieved major milestones. ACCU now represents 45.3 million individual members from 56,030 credit unions in 20 countries.

Credit Union Solutions	No. Trained as of 2007	2008/ 2009
1. Credit Union Management Tools (Model Policies)	3,500	210
2. Credit Union Business Development Center Operations Manual	240	60

12. ACCESS Audit Procedures Manual		40
13. Credit Union Product Catalogue		60
14. Credit Union Director Toolkit		50
Total	28,640	1,557

This year, I am proud to report that our concerted focus on solutions development has strengthened the foundation for credit union growth and competitiveness. In today's environment, being good is not enough. Credit unions need to offer excellent service. In the last decade, ACCU has been working hard to bridge the gaps in credit union performance. Fourteen credit union solutions are now available for members.

More than 100 credit union professionals have been trained to use the credit union solutions that will serve as tools to respond to the challenges faced by credit unions. Some examples of the credit union solutions are the Directors and CEOs Competency Courses (CUDCC and CUCCC), ACCESS Branding and others. We have started stepping up, as we developed the Credit Union Risk Based Supervision and Stabilization Fund that will embark upon protecting the interest of credit union members.

The ongoing relevance of ACCU continues to be founded on our values. Strengthening our long-term membership relationships through our high-value services makes up our first foundation. We grow from that foundation by adding value to our existing members. We stretch our team's imagination and resourcefulness to offer up to date management solutions to modernize credit union operations.

Long-Term Sustainability Target:

Building on our relationships with our long-term development partners and building our own internal capital are focused to ensure the continuity of our services to Asian credit unions.

ACCU's long-term financial objective is to build the Reserve Fund to a level where it can generate income sufficient to cover our trade and development missions. The target set in the new Strategic Plan is US\$ 5 million. Today, ACCU has US\$ 2 million in Reserves. It was built from US\$ 600,000 in 1995.

Development Projects: Supports the Vision and Builds Capability of Members

The current development projects of ACCU helps members build their capacity in addressing critical issues in credit union sustainability that consequently supports the achievement of the Asian Credit Union roadmap. The list of current projects is listed in the attached annex.

The following are some highlights of the evolving partnership with development partners:

- Cordaid agrees to provide financial support for the new project in 2009 to 2012. The new project will continue the work in lobbying for enabling regulatory framework for credit unions and reach 1 million poor people by CUMI. The project proposal has been submitted to Cordaid.
- Agriterro approved the project on the promotion of Savings and Credit Unions (SCUs) in Lao PDR. A total of 15 credit unions will be organized in three provinces of the northern part of Laos (Oudomxay, Luang Namtha and Sayaboury).
- Rabobank Foundation agrees to provide financial support for Euro 15,000 to the Asian Credit Union Forum 2009. Part of the contribution is to support the participation of participants from Rabobank's project countries such as Laos, Cambodia and Indonesia.
- Irish League of Credit Unions provided a short term financial support to promote credit unions in Pakistan.

Both leaders and professionals need to be highly skilled and passionate about ensuring credit unions are world-class financial service provider to their members.

Though people are the most important assets of the credit union, we should not forget to institutionalize policies and systems for world-class standards of operation and sound business practices so that even people change, the same quality of operation is practiced.

I would like to thank my team members, the members of Asian Leaders and Managers Institute, CEOs of member organizations for their continued dedication to identifying, implementing and driving the opportunities that create our sustained growth and strong member value.

We convey our heartfelt thanks to the Board of Directors of ACCU for providing strategic and policy direction.

Our thanks to the Board of Directors of member organizations for supporting every initiative of ACCU.

Thank you.
